STRONG PERSONALITY IN A LITTLE CUBE

CUBE

"We have raised the bar"

Sanremo Coffee Machines is proud to present the revolutionary CUBE, the new Semi-professional one group model, that follows in the footsteps of the Café Racer. An object of desire, advanced technology and minimal design in the "Sanremo style" tradition.

Thanks to the new colour palette and particular design of the side panels, CUBE offers a great choice for domestic use and branding for the professional market.

- **The most original design on the market**
- **Complete selection of colours and materials**
- **Highly customizable**
- **Web App for control and interaction**
- **Energy saving system**
- **Stainless steel boiler**
- **Smart water tank design**

ECLECTIC_
It fit's everywhere!

User Main Display

with multiple functions:

- Adjust boiler temperature, range 115-130°C (239-266°F)
- Shot clock for extraction time
- Enable and program water filter expiry (programmable from 1 to 12 months)
- Messages for water level and faults

CUBE

CUBE: TECHNICAL FEATURES

- 1.9L heat exchanger boiler stainless steel AISI 316
- Selectable water supply from internal tank or home main line
- 1.8L internal water tank
- Thermosiphon group with mechanical pre-infusion
- High performance volumetric pump rated 54L/h
- Boiler power 1500W/230Vac - 1300W/120Vac
- Energy Saving System
- WiFi connection with Web App
- Complete set of accessories for user experience
- Fully insulated boiler to improve heating efficiency.
- Line/Pump pressure gauge.
- Boiler pressure gauge.
- Removable internal water reservoir with integrated protection cover and anti-drip valve. Rounded internal edges for an easier cleaning.
- Strong three positions "main-close-tank" tap to select input water supply.
- Removable drip tray with drain tube.
- Stainless Steel cup frame.
- Cold Touch steam wand with "Purge" function.
- Hot water wand with removable nozzle for an easier cleaning.
- Electronic thermal management with SSR (Solid State Relay) with PID algorithm to achieve high thermal stability and reactivity.
- Electronic diagnostic for fault detection.
- High efficiency led panel for:
 - Machine ON/OFF
 - Machine ready/heated up
 - Water tank level with pre-alarm/alarm indicator
- Green mindset: Cube is compliant to the "Ecodesign" European directive 2009/125/EC for home appliances.
- Connected. With an internal WiFi module it's possible to connect a smartphone to the machine using our WebApp with point-to-point or cloud communication. WiFi module integrates OTA technology (OverTheAir) which allow an easy software update for WiFi module using web connection.

- Depth: _____ mm 465 / in 18"-3/8
- Height: _____ mm 369 / in 14"-1/2
- Weight: _____ Kg 26,5 / lbs 58

STYLISH_Sanremo Style

CUBE

The CUBE is available in 3 different body styles named: A, B, C.

The panels in both versions **A** and **B** are available in a wide range of standard or special colours. The cup holder and the tray with the work surface are in polished stainless steel.

The **C** version is available in exclusive editions and can be customized on request.

CUBE_A

The A model is the simplest and most minimal solution, suitable for a domestic customer. The cover panels of the machine are in a single color and the side panels in a single piece.

CUBE_B

In the B (Bicolour) model the side panels are made in two pieces in order to allow color variations and the personalization of the central panel even with special colors and branding.

CUBE_C

The C (Custom) model is available in exclusive editions with colors on request and special coatings on both the side panels and other elements such as the filter holder knob.

COMPLETE_Packaging & Accessory Kit

INTELLIGENT PACKAGING

This packaging was designed not only to delight the customer that opens it but also with logistics in mind.

It's the perfect size for pallet optimization, colour coded for quick identification and recyclable materials.

Inside the box the material that envelopes the machine is made from low-density polyethylene which is anti-scratch and shock-proof.

Cardboard Box

Pallet

Up to 12 boxes can be palletized
width mm 1.200
depth 800 mm
height 1515 mm

weight about Kg 330

ACCESSORY KIT

List of accessories contained in each package:

- single portafilter
- double portafilter
- two single filters (7, 8 gr)
- two double filter (14, 16 gr)
- blind filter
- cleaning brush
- tamper
- cleaning cloth
- t-shirt
- 35ml jug
- Sanremo bag
- instruction booklet
- water supply inlet pipe, drain hose clamp and drain pipe

CONNECTED_CUBE Web App

SMART COFFEE AT YOUR FINGERTIPS

Different connection modes are available with mobile, tablet and PC:

Point-to-Point directly with Machine

Cloud to access from anywhere

Manage more machines using the same app in different places!
Perfect to manage and control for machines placed in your home and B&B, hotel etc...

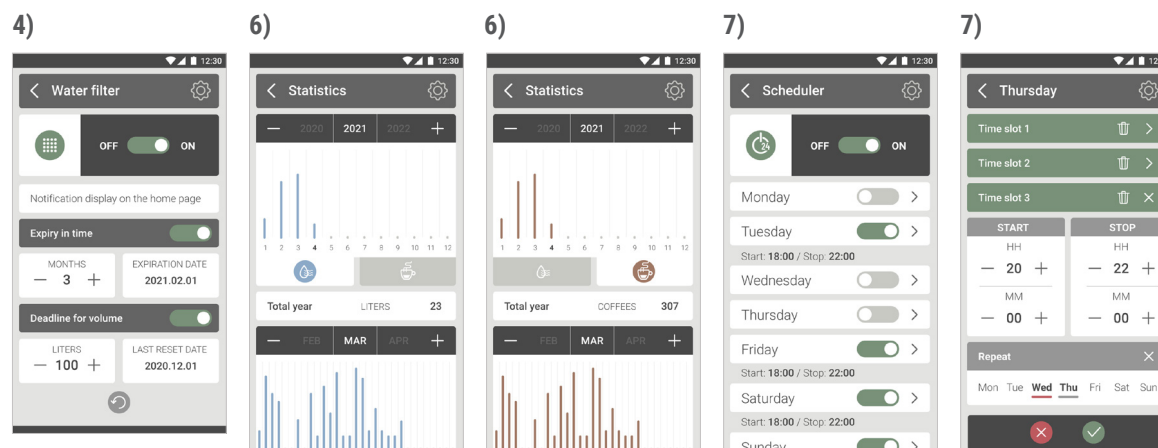

WiFi module through our WebApp, amplify and simplify interaction with Cube machines.

CUBE App allow user to scroll over different functions:

- 1) Remote machine on/off
- 2) Set-up boiler temperature
- 3) Manage water tank level
- 4) Enable and manage water filter signaling.
Available two different counters:
 - Expiry in time: simple to use, suitable for water tank
 - Expiry in volume: perfect for when the machine is connected to the main line supply, calculates the total volume of water consumption.
- 5) Show shot time in real time
- 6) Statistics: daily, weekly and monthly counters for coffee and water consumption.
- 7) Weekly scheduler to program up to three different "time slot" per day to fit perfectly around your life!
