

REQUIRED ITEMS

1. Tools
 - Flat head screwdriver
2. New Watercup Seal

3-step replacement process:

1. Use a flat head screwdriver to carefully pry off the seal from the Watercup. Make sure to not make scratches on the Watercup.
2. Remove the seal from the Watercup.
3. Install the new seal on the Water cup. Make sure to install it in the correct direction, see picture below.

Well done! Enjoy your espresso!

Superkop, easy-to-handle.
