

### Key Features:

- **EVO Technology:** climate control system that controls the heat coming off the motor. This keeps your beans from overheating so your drink quality is always consistent.
- **M340 Steel Burrs:** currently the only burrs being produced using material intended for food. Burrs are produced in-house using a computerized numerical control machine to ensure absolute quality.
- **The IPS touchscreen** display is ultra-responsive and extremely user-friendly.
- Highly resistant to corrosion, wear, and mighty tough.
- **Italian-made** quality.
- 250 watts makes it a great alternative for businesses looking for a quality grinder with a small footprint.

### Description:

This professional Fiorenzato coffee grinder is aesthetically pleasing and offers touchscreen displays, meaning easy viewing of coffee consumption statistics and the state of wear of the burrs. Set the grind size and quantity, and then touch the Start Button to begin grinding. This automatic espresso grinder gives you consistent results every time at the tap of a finger.

At 250 watts, the F4 EVO is a great alternative to the Fiorenzato EVO F64 and F83 grinders for businesses looking for a smaller footprint. This espresso grinder is great as a secondary grinder for your decaf or single-origin coffee beans, or as a primary grinder for lower-volume businesses.

We also recommend the F4 EVO for home use if you are looking for something with high-quality burrs and touchscreen features to go with your home espresso machine.

### Technical Specifications:

Grind Adjustment:	Ring nut micrometric- continuous
Dose Adjustment:	Time in seconds
Fork:	Adjustable, with support
Power:	250 watt
Power Supply:	110-120v - 60Hz
Burr Type:	Flat
Burr Diameter:	Ø 58mm
Burr Revs:	1600/min (60 Hz)
Hopper Capacity:	1.1 lbs (500g)
Dimensions (wdh):	6.6 x 18.6 x 9.4in (169 x 473 x 240mm)
Net Weight:	19.8lbs (9kg)
Finish:	Matte Black / White
Warranty:	24 months from date of purchase
